

To Our Valued Patients,

We are happy to announce that as of August 1, 2013, Dr. Emily Rehberg is now the owner and operator of her own practice, now called "Lung Care &." This change will likely not be too obvious to you, our hope being that it is a nearly invisible transition. We hope that any changes you do notice are only positive. We appreciate your patience as we work out the "bugs" of our new system.

Some of the changes you may notice are the following:

1. The PFT machine will be located in our office. We hope that this allows you less hassle and wait time to get your PFTs completed. We are pleased that Christy Ramey will be joining us to assist in this office procedure. Sandy Jones will transition with us to the new practice.
2. Billing will be done by a billing team located in our building. IF you have questions about your bill **on or before July 31, 2013** you will need to contact CVMC for those issues. Billing issues for visits starting August 1, 2013 will be handled by our office.
3. Samples will only be given in association with a visit; in other words, samples will not be dispersed from the check-in window unless prior arrangements and approval have been obtained from Dr. Rehberg.
4. Cancellation fees will be charged to your account for any appointment not cancelled **at least 24 hours** prior to your appointment. This balance will be due at your next visit prior to your visit with the doctor. Three or more no-shows may result in dismissal from clinic.
5. Dr. Rehberg will be spending some time at Citizen's Hospital in Talladega beginning September 2013; if you are hospitalized there, Dr. Rehberg may be able to visit you during your hospitalization.
6. Because of this transition, discounts previously provided by CVMC are no longer available for clinic visits and in-office procedures. Please inquire about your payment responsibilities with our staff.

We look forward to continuing to serve you in the Sylacauga area. Your loyalty and cooperation are imperative to our being about to provide care in the area.

Sincerely,

LungCare&, PC Staff
